### ***Allowable Subject Matter***

2. Claims 1-26 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Art Unit: 2821

claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 15-23 is the inclusion of the method step of coupling the chip antenna and a lens material via a conductive material applied therebetween to provide a ground plane for the chip antenna. It is this step found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claim 24 is the inclusion of the limitation of the conductive means further positioned between the display and the antenna for a coupling therebetween. It is this limitation found in claim, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes this claim allowable over the prior art.

The primary reason for the allowance of claims 25-26 is the inclusion of the limitation of a lens material with a conductive coating positioned between the lens material and the chip antenna to provide a chip antenna ground plane. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
